

BE AI SMART

Let values guide you in an AI world

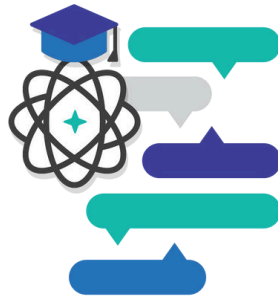

Responsibility

OWN YOUR ACTIONS

Recognise where AI shows up and how you use it.

From chatbots to recommendation feeds, AI is part of your digital world. Be intentional in how you use tools.

Integrity

SHARE WHAT'S TRUE

AI can create fake news, deepfakes and biased answers.

Fact-check content before you believe or share it. Don't rely on AI to be the expert, use your judgment to keep it real.

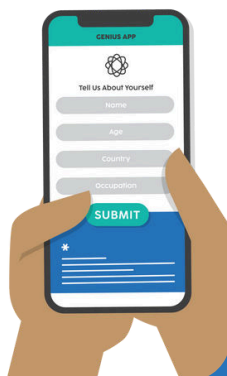

Strength

PROTECT OUR DATA

Everyone's personal information powers AI, protect it together.

Know your privacy rights and always seek permission before sharing someone else's photo, voice, or data.

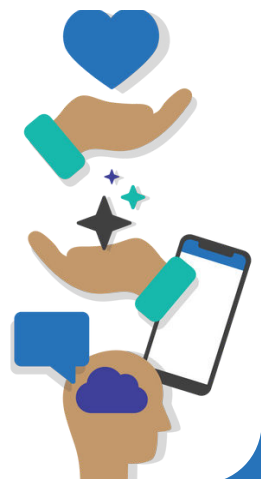

Empathy

KEEP IT HUMAN

AI is powerful, but people come first.

Before using AI, ask: Who could be impacted? Will it help or hurt? Choose tech that's fair, kind, and inclusive.

Be AI Smart: Teacher Factsheet

Ethical Foundations for the AI-Ready Classroom

Cyber Safety Project is one of Australia's leading online safety and digital wellbeing education program for schools. Let's unpack the four **R.I.S.E values** behind the **Be AI Smart** poster and explore why they matter in a world shaped by AI.

Responsibility: Own Your Actions

Why it matters: AI is in our feeds, games, and digital tools. Students need to recognise where AI 'shows up' to stay in control.

- Helps students become intentional tech users.
- Builds digital agency, not dependence.

Try this: Ask students to spot AI in daily life such as recommendations, filters, smart assistant and reflect on their choices.

Integrity: Share What's True

Why it matters: AI can create fake news, deepfakes, and biased answers. Students must learn to fact-check and think critically.

- Reinforces responsible sharing.
- Builds media and information literacy.

Try this: Use AI tools to compare real vs generated content. Discuss how to spot misleading information.

Strength: Protect Our Data

Why it matters: AI relies on data. Students should know how to protect their own and respect others'.

- Promotes consent and privacy.
- Supports safe online habits.

Try this: Role-play asking for consent before sharing a photo or voice clip. Discuss what data is safe to share.

Empathy: Keep It Human

Why it matters: AI can impact real people. Students need to consider fairness and feelings in digital decisions.

- Encourages ethical use of tech.
- Builds awareness of social impact.

Try this: Ask: Who might be helped or harmed by this AI tool? What's the fair thing to do?
